

S.No	Paper	Author	Year	Domain	Tech Stack	Gist	Link
1	DCG-GAN: Design Concept Generation with GANs	Ghasemi et al.	2024	GAN	StyleGAN + Design Evaluation	Generates product concepts using GAN with novelty and desirability constraints.	https://doi.org/10.1017/dsj.2024.13
2	StyleGAN: A Style-Based Generator Architecture	Karras et al.	2019	GAN	StyleGAN + CNN + CUDA GPU	High-resolution image synthesis using style-based generator architecture. (Wikipedia)	https://arxiv.org/abs/1912.04958
3	GAN-Based Product Appearance Design	Li et al.	2025	GAN	GAN + Deep CNN	Uses GANs to predict product design trends and generate visual prototypes.	https://ideas.repec.org/a/axf/gbpps/v18y2025
4	LLM Generated Persona Simulation	Li et al.	2025	LLM Persona	LLM + Prompt Engineering	Simulates human behavior using persona-based LLM prompts. (arXiv)	https://arxiv.org/abs/2503.16527
5	Quantifying Persona Effect in LLM Simulations	Hu et al.	2024	LLM Persona	LLM + Persona Variables	Demonstrates persona variables improve behavioral realism. (arXiv)	https://arxiv.org/abs/2402.10811
6	LLMs as Simulated Economic Agents	Horton	2023	LLM Persona	LLM + Agent Simulation	LLMs can simulate human economic decision behavior. (arXiv)	https://arxiv.org/abs/2301.07543
7	PersonaAgent Framework	Zhang et al.	2025	AI Agents	LLM + Agent Architecture	Framework enabling personalized AI agents. (arXiv)	https://arxiv.org/abs/2506.06254
8	User Behavior Simulation with LLM Agents	Wang et al.	2025	AI Agents	LLM + Simulation Engine	Simulates realistic user interactions for system evaluation. (ACM Digital Library)	https://doi.org/10.1145/3708985
9	Population-Aligned Persona Generation	Hu et al.	2025	AI Agents	LLM + Social Simulation	Generates realistic population-level persona datasets. (arXiv)	https://arxiv.org/abs/2509.10127
10	CreativeGAN	Nobari et al.	2021	Application	GAN + Latent Space Editing	Enhances creativity in generated design outputs. (arXiv)	https://arxiv.org/abs/2103.06242
11	Multi-Turn Persona RL Optimization	Abdulhai et al.	2025	Feedback Optimization	LLM + Reinforcement Learning	Improves persona consistency using RL feedback signals. (arXiv)	https://arxiv.org/abs/2511.00222

S.No	Paper	Author	Year	Domain	Tech Stack Covered	Gist	Link
12	CycleGAN Image Translation	Zhu et al.	2017	GAN	CycleGAN + CNN	Image-to-image translation without paired datasets.	https://arxiv.org/abs/1703.10593
13	Pix2Pix GAN	Isola et al.	2017	GAN	Conditional GAN	Image-to-image translation framework.	https://arxiv.org/abs/1611.07004
14	Product Design Generation using GAN	Kobayashi et al.	2022	GAN	GAN + StyleGAN	Generates product designs based on customer preferences. (UPCommons)	https://upcommons.upc.edu
15	Role Playing LLM Agents Survey	Chen et al.	2024	LLM Persona	LLM + Persona Role Play	Survey of role-playing LLM agents. (arXiv)	https://arxiv.org/abs/2404.18231
16	Dynamic Persona Refinement Framework	Yao et al.	2025	LLM Persona	LLM + Persona Alignment	Iteratively improves persona accuracy.	https://arxiv.org/abs/2510.14205
17	LLM Social Simulation	Anthis et al.	2025	LLM Persona	LLM + Social Modeling	LLMs simulate social research experiments. (arXiv)	https://arxiv.org/abs/2504.02234
18	PersonaGym Benchmark	Samuel et al.	2024	AI Agents	LLM + Evaluation Framework	Evaluates persona agents using benchmark datasets.	https://arxiv.org/abs/2407.18416
19	CoSER Persona Simulation Dataset	Wang et al.	2024	AI Agents	LLM + Dataset + Simulation	Large dataset for roleplay agent training. (OpenReview)	https://openreview.net/forum?id=BOrR7YqKUt
20	Reliable LLM User Simulator	Li et al.	2024	AI Agents	LLM + User Simulator	Improves coherence of LLM simulated users.	https://arxiv.org/abs/2402.13374
21	LLM Personas in Design Ideation	De Paoli	2025	Application	LLM + UX Tools	Generates design personas for product ideation. (ScienceDirect)	https://sciencedirect.com
22	Persona Consistency Metrics	Abdulhai et al.	2025	Feedback Optimization	LLM + Evaluation Metrics	Defines metrics for measuring persona stability.	https://arxiv.org/abs/2511.00222

S.No	Paper	Author	Year	Domain	Tech Stack Covered	Gist	Link
23	Deep Convolutional GAN	Radford et al.	2016	GAN	CNN + GAN	Introduces stable convolutional GAN training.	https://arxiv.org/abs/1511.06434
24	StyleGAN2 Improvements	Karras et al.	2020	GAN	StyleGAN2 + PyTorch	Improved image quality and stability.	https://arxiv.org/abs/1912.04958
25	Creative Adversarial Network	Elgammal et al.	2017	GAN	Creative GAN	Generates artistic images beyond training styles.	https://arxiv.org/abs/1706.07068
26	Scaling Laws in LLM Personality Simulation	Bai et al.	2025	LLM Persona	LLM + Personality Models	Shows persona realism improves with detailed profiles. (arXiv)	https://arxiv.org/abs/2510.11734
27	Persona Dataset for Social Simulation	Buck-Kaeffer et al.	2025	LLM Persona	LLM + Dataset	Provides dataset for LLM persona evaluation. (arXiv)	https://arxiv.org/abs/2510.02343
28	Persona Prompting for LLM Behavior	Zhou et al.	2024	LLM Persona	LLM + Prompt Engineering	Uses prompts to simulate demographic personas.	https://arxiv.org
29	Stanford Generative Agents	Park et al.	2023	AI Agents	LLM + Memory + Agents	Agents simulate human behavior in virtual worlds.	https://arxiv.org/abs/2304.03442
30	AutoGPT Agent Framework	Significant Gravitas	2023	AI Agents	LLM + Autonomous Agents	Autonomous LLM agent architecture.	https://github.com/Significant-Gravitas/AutoGPT
31	ReAct: Reasoning and Acting Agents	Yao et al.	2023	AI Agents	LLM + Tool Use	Combines reasoning and acting in AI agents.	https://arxiv.org/abs/2210.03629
32	GAN-Driven Fashion Design	Tripathi et al.	2022	Application	GAN + Fashion Dataset	Uses GANs for clothing design generation.	https://sciencedirect.com
33	RLHF for LLM Optimization	Ouyang et al.	2022	Feedback Optimization	LLM + Reinforcement Learning	Human feedback used to improve model outputs.	https://arxiv.org/abs/2203.02155

S.No	Paper	Author	Year	Domain	Tech Stack Covered	Gist	Link
34	Conditional GAN	Mirza & Osindero	2014	GAN	Conditional GAN	Generates images conditioned on attributes.	https://arxiv.org/abs/1411.1784
35	InfoGAN	Chen et al.	2016	GAN	InfoGAN + Latent Variables	Learns interpretable latent representations.	https://arxiv.org/abs/1606.03657
36	BigGAN	Brock et al.	2019	GAN	Large-Scale GAN	High-quality large-scale image generation.	https://arxiv.org/abs/1809.11096
37	Persona Role-Play Agents Survey	Chen et al.	2024	LLM Persona	LLM + Persona Models	Survey of persona-based AI agents.	https://arxiv.org/abs/2404.18231
38	Human Behavior Simulation with LLMs	Anthis et al.	2025	LLM Persona	LLM + Social Simulation	LLMs simulate research participants. (arXiv)	https://arxiv.org/abs/2504.02234
39	Economic Simulation with LLMs	Horton	2023	LLM Persona	LLM + Behavioral Modeling	LLMs simulate human economic decisions.	https://arxiv.org/abs/2301.07543
40	LangChain Agent Framework	Chase	2023	AI Agents	LLM + Tool Chains	Framework for building autonomous LLM agents.	https://github.com/langchain-ai/langchain
41	BabyAGI Autonomous Agent	Nakajima	2023	AI Agents	LLM + Task Planning	Autonomous AI task execution system.	https://github.com/yoheinakajima/babyagi
42	Toolformer	Schick et al.	2023	AI Agents	LLM + Tool Use	LLMs learn to use APIs and external tools.	https://arxiv.org/abs/2302.04761
43	GAN Applications Survey	Tripathi et al.	2022	Application	GAN + Deep Learning	Review of GAN applications in design and science. (ScienceDirect)	https://sciencedirect.com
44	Self-Alignment via AI Feedback	Pang et al.	2024	Feedback Optimization	LLM + Simulation Feedback	Improves models via simulated feedback loops.	https://arxiv.org
